

Real solutions for real pool challenges

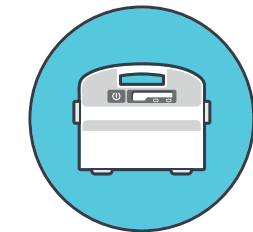

Swivel - cable tangle prevention system

Dolphin's swivel cable eliminate tangled cables forever! As your Dolphin moves around the pool, the swivel ensures that the cable stays free and clear, allowing for complete pool coverage.

MyDolphin™ - smartphone multi-function app *

MyDolphin™ app for convenient cleaning program setup and operation control, including manual navigation to direct your robot to clean specific parts of the pool.

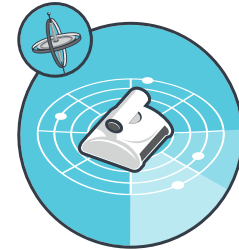

Multi-Function Power Supply *

Preset your Dolphin operation at a touch! Easily set cleaning programs, cycle time and a weekly schedule, delay operation, and check filter bag status, all via the touch-screen power unit.

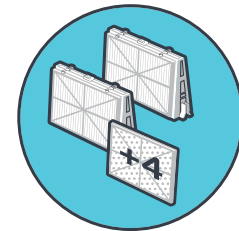

* Depending on model

Advanced scanning software and gyroscopic navigation system ensure floor, walls and waterline are fully covered using the most efficient route. The Dolphin automatically navigates around obstacles and quickly returns to its cleaning pattern.

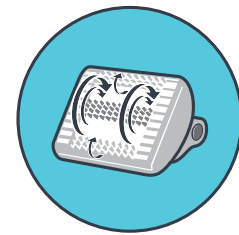

CleverClean™ Coverage + Gyro - precise navigation system *

Dual-level filtering ensures clog-free operation in any pool conditions. Use the net filter at the start of season to clear rough debris; for regular use, catch fine and rough dirt with the ultra-fine filter cartridge.

Two filtration options for fine and large dirt *

Triple-action brushing delivers extra-effective scrubbing and cleaning. The active brush spins at 2x the speed of the robot to scrub away algae and bacteria, leaving your pool water clean, clear, and healthy.

Triple Action brushing optional

Superior pool cleaning made easy

Choose the highest performing robot that's right for your pool:

Dolphin M 3

The basic reliable robotic cleaner. With minimum investment you can enjoy expert cleaning of the pool floor and wall, including the difficult-to-reach angle where the floor meets the walls.

Dolphin M 500

Intelligent and sophisticated, the Dolphin Supreme M500 is recommended for all pools up to 15m in length, this gyro integrated cleaner provides the most efficient clean for your pool. Maximize your enjoyment and relax, with MyDolphin™ App controlled setup and programs, and intervention-free cleaning of the pool floor, walls and waterline.

Dolphin M 600

The all-new Maytronics Dolphin M 600 robotic pool cleaner makes it super-easy to look after your swimming pool, keeping it clean and ready for fun, with minimum effort and hassle. It is newly designed for maximum cleaning performance, convenient handling and simple operation that needs no intervention from you and it is cloud connected, so you've always got control right in your hand, no matter where you are.

Dolphin BIO SUCTION

Dolphin Bio Suction, from Maytronics, is the first automated solution for maintaining both bio and natural pools. It combines the best of proven Dolphin technology and is designed with additional features that address the special challenges of bio and natural pools. Dolphin Bio Suction (patent pending) delivers top-of-the line cleaning performance for bio and natural pools up to 15m in length.

Get powerful performance coupled with exclusive Dolphin features that you won't find in any other cleaners

Enjoy the Dolphin advantages:

Superior cleaning performance

- Total cleaning all the way to the waterline, with optional tripple-action brushing that scrubs away dirt and debris *
- Superior collection of dirt and debris leaves water crystal-clear
- Precise self-adjusting navigation and full-coverage cleaning – with gyroscopic navigation system

Long-lasting reliability

- Built to last – for years of hassle-free cleaning
- Clog-free operation in most pool conditions – with dual-level filter and two filtration options

Effort-free operation

- Fully automated – just set it and forget it
- Nonstop cleaning – with advanced obstacle escape mechanism
- User-friendly smartphone MyDolphin™ app for convenience and control *

* Depending on model

About Maytronics

Nobody knows robotic pool cleaners like Maytronics – the company behind top-selling Dolphin robots. For more than 30 years, we have been developing robotic cleaning solutions for the world's swimming pools.

Starting in 1983, we pioneered automated electronic pool cleaning technology. And today, Maytronics remains the market leader, continually setting new standards for technological innovation, design and reliability.

In everything we do, we strive to make pool owners' and users' lives easier and more enjoyable. Our goal: to enable an exceptional experience of a pure, clean, safe and relaxing pool.
